CHARLOTTE, N.C., May 06, 2020 (GLOBE NEWSWIRE) -- Extended Stay America, Inc. and ESH Hospitality, Inc. (NASDAQ:STAY) (together, the "Company") today announced consolidated results for the three months ended March 31, 2020.

First Quarter 2020 Highlights

- **Net income of \$7.8 million**
- **Total revenues of \$266.3 million**
- **Comparable system-wide Revenue Per Available Room ("RevPAR") declined 5.8% to \$43.98**
- **Adjusted EBITDA¹ of \$97.7 million**
- **Adjusted Funds From Operations ("Adjusted FFO")¹ of \$0.31 per diluted Paired Share**
- **Adjusted Paired Share Income¹ of \$0.07 per diluted Paired Share**
- **Comparable system-wide RevPAR index of 107, a 12% increase compared to the first quarter of 2019, with a RevPAR index of 122 in March 2020, a 32% increase compared to March 2019**

Extended Stay America's President and Chief Executive Officer Bruce Haase, commented, "I am proud of our Company's performance during this period of pandemic and economic uncertainty. Thanks to the hard work of our nearly 8,000 employees and our franchisee partners every single Extended Stay America hotel has remained open through the pandemic, we have maintained relatively healthy overall occupancy levels, and we have not been forced to enact any wide-spread furloughs or staff reductions as seen by others in the industry. Our property teams have done a remarkable job keeping their colleagues and our guests safe while continuing to provide an essential service for their communities and I'd like to thank them for all their hard work."

Mr. Haase continued, "March and April saw the highest RevPAR Index scores for STAY in the Company's history by a wide margin. We believe that our positive RevPAR performance relative to the industry during this difficult time period demonstrates the resiliency of our extended stay business model and the unique characteristics of our business compared to traditional transient lodging brands. We are also pleased to see improved RevPAR and occupancy trends during the last few weeks compared to earlier in the nationwide response to the virus. We believe the Company is in a strong financial position to navigate through this crisis and well positioned as the economy reopens."

Financial and Operating Results

Total revenues for the three months ended March 31, 2020 were \$266.3 million, a decrease of 4.1% over the same period in the prior year due to the impact in March from the COVID-19 pandemic.

Comparable system-wide RevPAR for the three months ended March 31, 2020 declined 5.8% over the same period in 2019 to \$43.98, driven by a 6.5% decline in Average Daily Rate ("ADR"), partially offset by a 60 basis point increase in occupancy to 71.9%. Comparable system-wide RevPAR growth for the first two months of 2020 was 2.6% prior to the impact of COVID-19 in March 2020. Our positive results for this period were completely offset by March's RevPAR, which declined approximately 19% over March 2019 due to the COVID-19 Pandemic. Depressed levels of RevPAR continued into Q2 2020, although as noted above have shown preliminary signs of moderation.

Hotel Operating Margin¹ for the three months ended March 31, 2020 was 45.7% compared to 50.1% in the same period in 2019. The decline in Hotel Operating Margin was driven primarily by a decrease in comparable system-wide RevPAR and increased hotel payroll expenses. Hotel operating expenses declined approximately 2.4% in March 2020 compared to March 2019.

Net income for the three months ended March 31, 2020 was \$7.8 million compared to \$28.4 million in the same period in 2019, a decrease of 72.4%. The decline in net income was due to a decline in comparable system-wide RevPAR and an increase in hotel operating expenses, partially offset by lower income tax expense.

Adjusted EBITDA for the three months ended March 31, 2020 was \$97.7 million, a decline of 16.0% compared to the same period in 2019. The decline in Adjusted EBITDA was due primarily to a decline in Comparable system-wide RevPAR as well as an increase in hotel labor expenses. Adjusted EBITDA excludes non-cash equity-based compensation expense of \$1.1 million, \$3.3 million in loss on disposal of assets and \$1.1 million in other expenses.

Adjusted FFO for the three months ended March 31, 2020 was \$55.1 million compared to \$68.4 million in the same period in 2019. The decline in Adjusted FFO was primarily due to a decline in comparable system-wide RevPAR, an increase in comparable Company-owned hotel operating expenses and an increase in interest expense, partially offset by lower income tax expense. Adjusted FFO per diluted Paired Share was \$0.31 compared to \$0.36 in the same period in 2019. Adjusted FFO, a non-GAAP measure, represents funds from operations, as adjusted, attributable to

the consolidated enterprise, whose representative equity security is a Paired Share. A Paired Share entitles its holder to participate in 100% of the common equity and earnings of both Extended Stay America, Inc. and ESH Hospitality, Inc.

Adjusted Paired Share Income for the three months ended March 31, 2020 was \$12.2 million, or \$0.07 per diluted Paired Share, compared to \$29.5 million, or \$0.16 per diluted Paired Share, in the same period in 2019. The decline in Adjusted Paired Share Income per diluted Paired Share was due to a decline in comparable system-wide RevPAR, an increase in comparable Company-owned hotel operating expenses and increased interest expense, partially offset by lower income tax expense. Adjusted Paired Share Income, a non-GAAP measure, represents net income, as adjusted, attributable to the consolidated enterprise, whose representative equity security is a Paired Share.

Capital Expenditures

The Company invested \$54.6 million in capital expenditures during the first quarter of 2020. This includes \$8.9 million in renovation capital and \$20.0 million in capital for ESA 2.0 hotel development and land acquisitions.

Hotel and Development Pipeline

As of March 31, 2020, the Company had a pipeline of 73 hotels representing approximately 8,800 rooms with two hotels opened through the end of the quarter. Since the end of the first quarter, one new franchise built hotel and one new Company owned hotel have opened.

Distributions and Share Repurchases

On May 6, 2020, the Board of Directors of ESH Hospitality, Inc. declared a \$0.01 distribution to ESH Class A and B shareholders payable on June 4, 2020 to shareholders of record on May 21, 2020. Management and the Boards of Directors of Extended Stay America, Inc. and ESH Hospitality, Inc. intend to review future Company distributions once business conditions have stabilized. ESH Hospitality, Inc. will continue to distribute at least 90% of its pre-tax earnings to maintain its REIT status.

The Company repurchased approximately 2.2 million Paired Shares in the first quarter of 2020 for an aggregate purchase price of \$31.0 million. The Company has not repurchased any Paired Shares since early February. The Company has \$101.1 million in authorization outstanding, but does not intend to repurchase any additional Paired Shares for the foreseeable future.

COVID-19 Pandemic Response

The Company has taken a number of steps in response to the pandemic in the United States. These include but are not limited to:

- Provided additional cleaning in our hotels, with a focus on high touch areas, in accordance with CDC guidelines
- Purchased and supplied PPE for our employees for their safety
- Reduced interactions between our guests and our associates, including temporarily suspending our grab n' go breakfast and switching to every other week housekeeping from weekly housekeeping
- Increased effort and focus for the remainder of 2020 to attract guests staying for a month or longer at a time, which has proven significantly more resilient to date than typical transient and group guests in the broader lodging industry
- Reduced payroll hours due to lower occupancy and longer length of stay guests at a number of our properties

- Drew \$400 million on the Company's revolvers. The Company had approximately \$725.0 million in cash, including restricted cash, on our balance sheet as of March 31, 2020.
- The Company executed an amendment to the Corporation Revolving Credit Facility and obtained a suspension of the quarterly tested leverage covenant from the beginning of the second quarter of 2020 through the end of the first quarter of 2021. For the second quarter of 2021 through the fourth quarter of 2021, the leverage covenant calculation has been modified to use annualized EBITDA, as opposed to trailing twelve-month EBITDA. Additionally, the amendment provides for the Corporation to borrow up to \$150.0 million from ESH REIT through an intercompany loan facility. During the suspension period, the Company has agreed to maintain minimum liquidity of \$150.0 million and to limit share repurchases and dividend payments made by the Corporation.
- Utilizing the CARES act to reduce our 2020 tax liabilities and other measures
- Suspended Paired Share repurchases and reduced the quarterly distribution
- Due to the uncertain nature of local and state responses as well as macro-economic uncertainty from the COVID-19 pandemic, the Company will not update business performance guidance for 2020. The Company expects depreciation and amortization for the year between \$190 and \$195 million, net interest expense between \$135 and \$145 million, and capital expenditures between \$160 to \$190 million.

The Company will continue to review the situation as conditions improve or decline and may take additional actions as the situation warrants. The Company believes it has sufficient liquidity to withstand a prolonged industry downturn.

To date, the Company has not had to close any of its hotels due to COVID-19 and our comparable system-wide occupancy for the month of April was approximately 61%. The Company experienced comparable system-wide RevPAR declines in April 2020 of approximately 35%. The Company's absolute RevPAR and occupancy levels have improved in the prior three weeks compared to the first half of April.

April 2020 saw the Company's highest RevPAR index for a month in the Company's history by a wide margin, with an index in excess of 150, based on preliminary results, compared to approximately 96 for the full year 2019, highlighting the Company's strong operating efforts and our more resilient business model compared to the broader lodging industry.

RevPAR Index

RevPAR Index is stated as a percentage and calculated by comparing RevPAR for owned hotels or system-wide hotels to the aggregate RevPAR of a group of competing hotels generally in the same market. As such, the RevPAR Index is only a measure of RevPAR relative to certain competing hotels and not a measure of our absolute RevPAR or profitability. We subscribe to STR, Inc. ("STR"), an independent third-party service, which collects and compiles the data used to calculate RevPAR Index. We select the competing hotels included in the RevPAR Index calculation subject to STR's guidelines. The competing hotels included in STR guidelines will generally include certain hotels that are not considered part of the extended stay lodging segment of the hospitality industry and, instead, fall within the category of short-term stay hotels. STR does not endorse the Company, or any other company, and STR data should not be viewed as investment advice or as a recommendation to take a particular course of action.
